

Printed parts:

- 1x Pico Spool Monitor base
- 1x lid: plain, raised-logo, or engraved-logo
- 1x optional 2020/4040 extrusion adapter plate

Hardware:

- M2 screws for PCB mounting - M2.5 screws for lid mounting
- M2.5 x 6 mm screws for adapter plate mounting
- M5 screws for extrusion mounting
- M5 T-nuts for 2020/4040 extrusion
- small zip ties for wire strain relief

Electronics:

- Raspberry Pi Pico 2 W
- prototype PCB, approximately 88.9 mm x 52.1 mm (ElectricCookie PCB)
- lane switches or filament-present sensors (KW11-3Z-N 1NO + 1NC)
- 8 3mm Green LED Diode Lights diffused lamp (Color Lens Round DC 3V 20mA)
- LED resistors (10k ohm .5watt)
- Wiring/connectors as needed

Connector type: 2.54mm/1pin - 1pin length

100cm(39.3in):

Model: 3x40pin - Female to male
